Index to Volume 66

January–June, 1987

Author Index

ABBOTT IR. Book review, 631
ABE H. *See* Iwasaki Y, 935
ADACHI S. *See* Hori T, 372
ADAMS CBT. Effect of early aneurysm surgery and nimodipine administration. Letters, 482
———. Spasmodic torticollis resulting from neurovascular compression. Letter, 635
ADLER JR. *See* Leksell L, 626
ALBANNA FJ. *See* Nabors MW, 768
ALBERT A. *See* Hans P, 714
ALLEN P. *See* Nosko M, 416
ALVAREZ F, RODA JM. Experimental model for producing cerebral aneurysms. Letters, 634
AMPARO E. *See* Levin HS, 706
ANDERSON J. *See* Jenkin RDT, 227
ANDERSON RE. *See* Meyer FB, 109
ANNO Y. *See* Hori T, 372
ANTHONY DC, ATWATER SK, ROZEAR MP, BURGER PC. Occlusion of the basilar artery within a fracture of the clivus, 929
AOKI N. Attenuation in epidural hematomas. Letters, 789
———. Brain damage from boxing. Letter, 153
———. Incision of facial nerve branch at aneurysm surgery. Letters, 482
APUZZO MLJ. Book review, 941
ARIAS MJ. Glycerol rhizotomy for trigeminal neuralgia. Letters, 151
ATWATER SK. *See* Anthony DC, 929
AWAD IA. Spread of malignant gliomas. Letters, 946
AZZAM CJ. *See* Nabors MW, 768

BADEJO L, ROCKWOOD P. Traumatic arteriovenous fistula of the scalp. Case report, 773
BAINES D. *See* Morgan MK, 563
BARNETT GH, HARDY RW JR, LITTLE JR, BAY JW, SYPERT GW. Thoracic spinal canal stenosis, 338
BATTERSBY RDE. *See* Ironside JW, 588
BAUMAN JM. *See* Blumenkopf B, 96
BAY JW. *See* Barnett GH, 338
BECK DW. *See* Olson JJ, 584
BECKER DP. *See* DeSalles AAF, 102
BECKMAN AL. *See* Salzman SK, 431
BEDROS AA. *See* Knierim DS, 457
BELL WO, CHARNEY EB, BRUCE DA, SUTTON LN, SCHUT L. Symptomatic Arnold-Chiari malformation: review of experience with 22 cases, 812
BENOIT BG. *See* Lach B, 462
BENOIT P. *See* Lozes G, 128
BENTSON JR. *See* Hieshima GB, 124
BERGER MS. Ultrasound- versus CT-guided stereotaxic biopsy. Letters, 788
BERGSTROM L. Book review, 945
BERNSTEIN L. *See* Grunberg SM, 405
BERTRAND G. *See* Elisevich K, 611
BESSER M. *See* Morgan MK, 192, 563
BICKNELL JM, KIRSCH WM, SEIGEL R, ORRISON W. Atlanto-axial dislocation in acute rheumatic fever. Case report, 286
BLACK KL. *See* Chin LS, 290
BLACK PMcL, HSU DW, KLIBANSKI A, KLIMAN B, JAMESON JL, RIDGWAY EC, HEDLEY-WHYTE ET, ZERVAS NT. Hormone production in clinically nonfunctioning pituitary adenomas, 244
BLACK SPW. Book review, 148
BLOOM WH. Book review, 307
BLUMENKOPF B, HARTSHORNE MF, BAUMAN JM, CAWTHON MA, PATTON JA, FRIEDMAN AH. Craniotomy flap osteomyelitis: a diagnostic approach, 96
BOESEL C. *See* Jenkin RDT, 227
BONNER RF. *See* Rosenblum BR, 396
BORN JD. *See* Hans P, 714
BOUCKOMS AJ. Book review, 308
BOYD MC, STEINBOK P. Choroid plexus tumors: problems in diagnosis and management, 800
BRANDT L. *See* Ljunggren B, 482
BRISMAN R. Book review, 149
BRODNER RA, MARKOWITZ RS, LANTNER HJ. Feasibility of intracranial surgery in the primate fetus. Model and surgical principles, 276
BROOKS D. *See* Marmarou A, 883
BRUCE DA. *See* Bell WO, 812
———. *See* Duhaime AC, 409
BUCHER AP. *See* Quindlen EA, 734
BUCHOLZ RD, YOON KW, SHIVELY RE. Temporoparietal craniopagus. Case report and review of the literature, 72
BUDNY J. *See* Hopkins LN, 662
———. *See* Spetzler RF, 648
BULLOCK R. Althesin in the management of ICP following head injury. Letters, 948
BURGER PC. *See* Anthony DC, 929

CAHAN LD. Book review, 630
———, HIGASHIDA RT, HALBACH VV, HIESHIMA GB. Variants of radiculomeningeal vascular malformations of the spine, 333
CANTORE G, GUIDETTI B, DELFINI R. Neurosurgical use of human dura mater sterilized by gamma rays and stored in alcohol: long-term results, 93
CAPUTY AJ, MCCULLOUGH DC, MANZ HJ, PATTERSON K, HAMMOCK MK. A review of the factors influencing the prognosis of medulloblastoma. The importance of cell differentiation, 80
CARTER LP. *See* Hopkins LN, 662
———. *See* Spetzler RF, 648
CARTER RE. *See* Donovan WH, 690
CAWTHON MA. *See* Blumenkopf B, 96
CERRA FB. *See* Deutschman CS, 388
CHAMBI VI. *See* Young RF, 364
CHAN KH. *See* Mann KS, 938

Familial intracranial aneurysms, 522
Giant intracranial varices secondary to high-flow arteriovenous fistulae, 198
Immune complexes and complement activation following rupture of intracranial saccular aneurysms, 891
Incision of facial nerve branch at aneurysm surgery. Letters, 482
Intravascular balloon embolization of a large mid-basilar artery aneurysm. Case report, 124
The minor leak preceding subarachnoid hemorrhage, 35
Multiple intracranial aneurysms due to *Coccidioides immitis* infection. Case report, 453
Natural history of postoperative aneurysm rests, 30
The significance of unruptured intracranial saccular aneurysms, 23
Time course of blood velocity changes related to vasospasm in the circle of Willis measured by transcranial Doppler ultrasound, 718
Use of detachable balloons for proximal artery occlusion in the treatment of unclippable cerebral aneurysms, 40
Ankylosing spinal hyperostosis
Thoracic myelopathy secondary to ossification of the spinal ligament, 511
Anterior cervical discectomy
Vertebral arteriovenous fistula following anterior cervical spine surgery. Report of two cases, 297
Anterior decompression
Thoracic myelopathy secondary to ossification of the spinal ligament, 511
Antibiotic prophylaxis
Perioperative antibiotic prophylaxis for prevention of postoperative neurosurgical infections. A randomized clinical trial, 701
Anticoagulation therapy
Risk of intracranial hemorrhage in glioma patients receiving anticoagulant therapy for venous thromboembolism, 357
Antiprogesterone
Effect of the antiprogesterone RU-38486 on meningioma implanted into nude mice, 584
Arachnoiditis
Hydrocephalus secondary to cysticercotic arachnoiditis. A long-term follow-up review of 92 cases, 686
Arnold-Chiari malformation
Symptomatic Arnold-Chiari malformation: review of experience with 22 cases, 812
Arteriovenous fistula
Giant intracranial varices secondary to high-flow arteriovenous fistulae, 198
Traumatic arteriovenous fistula of the scalp. Case report, 773
Vertebral arteriovenous fistula following anterior cervical spine surgery. Report of two cases, 297
Arteriovenous malformation
Argon laser-induced arterial photothrombosis. Characterization and possible application to therapy of arteriovenous malformations, 748
Cerebral arteriovenous malformations, steal, and the hypertensive breakthrough threshold. An experimental study in rats, 563
Clipping of an AVM arterial feeder through a burr hole prior to radical surgery. Technical note, 305
Delayed postoperative dural arteriovenous malformations. Report of two cases, 768
Interhemispheric approach for the surgical removal of thalamocaudate arteriovenous malformations, 345
Intraoperative measurement of cortical blood flow adjacent to cerebral AVM using laser Doppler velocimetry, 396
Magnetic resonance imaging of spinal arteriovenous malformations, 830
Surgical treatment of arteriovenous malformations of the striatothalamocapsular region, 352
Variants of radiculomeningeal vascular malformations of the spine, 333
Arteriovenous malformation grading
AVM grading in assessing surgical risk. Letters, 637
AVM grading in assessment of surgical risk. Letters, 787
Artery, *see* specific arteries
Astrocytoma
Brain-stem tumors in childhood: a prospective randomized trial of irradiation with and without adjuvant CCNU, VCR, and prednisone. A report of the Childrens Cancer Study Group, 227
Intracranial metastases from malignant spinal-cord astrocytoma. Case report, 621
Radiation therapy for neoplasms of the brain, 1
The relationship between the capillary structure and hemor-

rhage in gliomas, 536
Atlanto-axial dislocation
Atlanto-axial dislocation in acute rheumatic fever. Case report, 286
Atlanto-occipital dislocation
Atlanto-occipital dislocations: correction. Letter, 789
Axillary nerve
Axillary nerve entrapment in the quadrilateral space. Case report, 932

Baclofen
Long-term intrathecal baclofen infusion for treatment of spasticity, 181
Basilar artery
Aneurysms of the basilar artery trunk, 500
Intravascular balloon embolization of a large mid-basilar artery aneurysm. Case report, 124
Occlusion of the basilar artery within a fracture of the clivus. Case report, 929
Basilar invagination
Syringomyelia as a complication of Paget's disease. Case report, 611
BCNU
Reevaluating the efficacy of intra-arterial BCNU. Letter, 313
Blood-brain barrier
Cerebral arteriovenous malformations, steal, and the hypertensive breakthrough threshold. An experimental study in rats, 563
Hyperosmotic blood-brain barrier disruption in brains of rats with an intracerebrally transplanted RG-C6 tumor, 256
Influence of modes of ACNU administration on tissue and blood drug concentration in malignant brain tumors, 372

Boxing
Brain damage from boxing. Letter, 153
Brain abscess
Effect of dexamethasone on experimental brain abscess, 264
Brain neoplasm, *see also* specific tumors
Brain-stem tumors in childhood: a prospective randomized trial of irradiation with and without adjuvant CCNU, VCR, and prednisone. A report of the Childrens Cancer Study Group, 227
Cerebral endometriosis. Case report, 609
Choroid plexus tumors: problems in diagnosis and management, 800
Correlation of meningioma hormone receptor status with hormone sensitivity in a tumor stem-cell assay, 405
Correlation of tumor plasminogen activator with peritumoral cerebral edema. A CT and biochemical study, 729
CT localization of a convexity brain tumor on the scalp. Technical note, 474
Desmoplastic supratentorial neuroepithelial tumors of infancy with divergent differentiation potential ("desmoplastic infantile gangliomas"). Report on 11 cases of a distinctive embryonal tumor with favorable prognosis, 58
DNA in meningioma tissues and explant cell cultures. A flow cytometric study with clinicopathological correlates, 588
Effect of the antiprogesterone RU-38486 on meningioma implanted into nude mice, 584
Hyperosmotic blood-brain barrier disruption in brains of rats with an intracerebrally transplanted RG-C6 tumor, 256
Imaging-based stereotaxic serial biopsies in untreated intracranial glial neoplasms, 865
Influence of modes of ACNU administration on tissue and blood drug concentration in malignant brain tumors, 372
In vitro drug sensitivity testing in human gliomas, 161
Meningeal melanocytoma. Case report and review of the clinical and histological features, 50
Mixed germ-cell tumor of the pineal region. Case report, 300
Modulation *in vitro* and *in vivo* of ACNU resistance in a subline of C6 glioma with reserpine, 251

Index

Potent and specific killing of human malignant brain tumor cells by an anti-transferrin receptor antibody-ricin immunotoxin, 850
Radiation therapy for neoplasms of the brain, 1
The relationship between the capillary structure and hemorrhage in gliomas, 536
A review of the factors influencing the prognosis of medulloblastoma. The importance of cell differentiation, 80
Risk of intracranial hemorrhage in glioma patients receiving anticoagulant therapy for venous thromboembolism, 357
Spread of malignant gliomas. Letters, 946
Squamous cell carcinoma as a late complication of intracerebroventricular epidermoid cyst. Case report, 618
Brain retraction
Monitoring retraction pressure on the brain. An experimental and clinical study, 270
Brain-stem encephalitis
Magnetic resonance images of brain-stem encephalitis. Case report, 283
Brain-stem neoplasm
Brain-stem tumors in childhood: a prospective randomized trial of irradiation with and without adjuvant CCNU, VCR, and prednisone. A report of the Childrens Cancer Study Group, 227
Brain stimulation
Pain relief by electrical stimulation of the periaqueductal and periventricular gray matter. Evidence for a non-opioid mechanism, 364
Brain water content
Influence of the rate of ventricular enlargement on the white matter water content in progressive feline hydrocephalus, 577

Calcium channel blocker
Effect of a calcium channel blocker on posttraumatic spinal cord blood flow, 423
Callosotomy
Surgical therapy for medically intractable epilepsy, 489
Carcinoembryonic antigen
Carcinoembryonic antigen in epidermoid cyst fluid and plasma. Letter, 316
Carotid artery
Cerebral hyperperfusion following carotid endarterectomy, 824
Emergency carotid endarterectomy, 817
The hemodynamic effects of internal carotid artery stenosis and occlusion, 755
Intracranial carotid artery injury in closed head trauma, 192
Use of detachable balloons for proximal artery occlusion in the treatment of unclippable cerebral aneurysms, 40
Carotid-cavernous fistula
Direct obliteration of carotid-cavernous fistulas. Letter, 948
Spontaneous carotid-cavernous fistula and multiple arterial dissections in Type IV Ehlers-Danlos syndrome. Case report, 462
Treatment of bilateral spontaneous dural carotid-cavernous fistulas by coils and sclerotherapy. Case report, 468
Carotid endarterectomy
Cerebral hyperperfusion following carotid endarterectomy, 824
Emergency carotid endarterectomy, 817
Intravenous digital subtraction angiography and duplex ultrasonography in postoperative assessment of carotid endarterectomy, 88
Carotid-jugular fistula
Cerebral arteriovenous malformations, steal, and the hypertensive breakthrough threshold. An experimental study in rats, 563
Catecholamine
The predictive value of catecholamines in assessing outcome in traumatic brain injury, 875
Cauda equina
Acute herniated nucleus pulposus with cauda equina compression syndrome following chemonucleolysis. Report of three cases, 614
Cavernous angioma of the cauda equina producing subarachnoid hemorrhage. Case report, 134
Elusive tumor of the cauda equina. Case report, 131
Caudate nucleus
Interhemispheric approach for the surgical removal of thalamocaudate arteriovenous malformations, 345
Cavernous angioma
Cavernous angioma of the cauda equina producing subarachnoid hemorrhage. Case report, 134
Cell culture
In vitro drug sensitivity testing in human gliomas, 161
Cerebral blood flow
Cerebral blood flow in patients with normal-pressure hydrocephalus before and after shunting, 379
Cerebral hyperperfusion following carotid endarterectomy, 824
Clipping of an AVM arterial feeder through a burr hole prior to radical surgery. Technical note, 305
Effects of experimental intracerebral hemorrhage on blood flow, capillary permeability, and histochemistry, 555
Experimental intracerebral hemorrhage: effects of a temporary mass lesion, 568
Hemodynamic and metabolic effects of cerebral revascularization, 529
The hemodynamic effects of internal carotid artery stenosis and occlusion, 755
Intraoperative measurement of cortical blood flow adjacent to cerebral AVM using laser Doppler velocimetry, 396
Treatment of experimental focal cerebral ischemia with mannitol. Assessment by intracellular brain pH, cortical blood flow, and electroencephalography, 109
Cerebral blood volume
Effect of stimulation of the medullary reticular formation on cerebral vasomotor tonus and intracranial pressure, 548
Cerebral edema
Correlation of tumor plasminogen activator with peritumoral cerebral edema. A CT and biochemical study, 729
Experimental intracerebral hemorrhage: effects of a temporary mass lesion, 568
Cerebral ischemia
Effect of a calcium channel blocker on posttraumatic spinal cord blood flow, 423
Effects of experimental intracerebral hemorrhage on blood flow, capillary permeability, and histochemistry, 555
Experimental intracerebral hemorrhage: effects of a temporary mass lesion, 568
The hemodynamic effects of internal carotid artery stenosis and occlusion, 755
Intracranial carotid artery injury in closed head trauma, 192
Omental transplantation for stroke and TIA's. Letter, 152
Treatment of experimental focal cerebral ischemia with mannitol. Assessment by intracellular brain pH, cortical blood flow, and electroencephalography, 109
Vertebrobasilar insufficiency. Part 1: Microsurgical treatment of extracranial vertebrobasilar disease, 648
Vertebrobasilar insufficiency. Part 2: Microsurgical treatment of intracranial vertebrobasilar disease, 662
Cerebral pH
Treatment of experimental focal cerebral ischemia with mannitol. Assessment by intracellular brain pH, cortical blood flow, and electroencephalography, 109
Cerebral steal
Cerebral arteriovenous malformations, steal, and the hypertensive breakthrough threshold. An experimental study in rats, 563
Cerebral vein
Reconstruction of cerebral cortical veins using silicone tubing.

Technical note, 471
Cerebrospinal fluid
Contribution of CSF and vascular factors to elevation of ICP in severely head-injured patients, 883
A new approach in the treatment of hydrocephalus, 213
Cerebrospinal fluid dynamics
Cerebral blood flow in patients with normal-pressure hydrocephalus before and after shunting, 379
A laboratory model of shunt-dependent hydrocephalus. Development and biomechanical characterization, 734
Cervical radiculopathy
Pachymeningitis cervicalis hypertrophica. Case report, 137
Cervical spine
Cervical flexion myelopathy: a "tight dural canal mechanism." Case report, 935
Chondroma of the cervical spine. Case report, 128
The neurological and skeletal outcome in patients with closed cervical spinal cord injury, 690
Tandem lumbar and cervical spinal stenosis. Natural history, prognostic indices, and results after surgical decompression, 842
Vertebral arteriovenous fistula following anterior cervical spine surgery. Report of two cases, 297
Chemonucleolysis
Acute herniated nucleus pulposus with cauda equina compression syndrome following chemonucleolysis. Report of three cases, 614
Effectiveness of chymopapain chemonucleolysis. Letters, 484
Subarachnoid hemorrhage following chymopapain chemonucleolysis. Case report, 775
Chemotherapy
Brain-stem tumors in childhood: a prospective randomized trial of irradiation with and without adjuvant CCNU, VCR, and prednisone. A report of the Childrens Cancer Study Group, 227
Effect on intracranial pressure of furosemide combined with varying doses and administration rates of mannitol, 440
In vitro drug sensitivity testing in human gliomas, 161
Reevaluating the efficacy of intra-arterial BCNU. Letter, 313
Child abuse
The shaken baby syndrome. A clinical, pathological, and biomechanical study, 409
Chondroma
Chondroma of the cervical spine. Case report, 128
Choroid plexus tumor
Choroid plexus tumors: problems in diagnosis and management, 800
Chromophobe adenoma
Clinically silent hypersecretion of growth hormone in patients with pituitary tumors, 806
Chymopapain
Effectiveness of chymopapain chemonucleolysis. Letters, 484
Subarachnoid hemorrhage following chymopapain chemonucleolysis. Case report, 775
Clinical deterioration
Deterioration following spinal cord injury. A multicenter study, 400
Clip
Aneurysm clip reliability. Letter, 315
Clivus fracture
Occlusion of the basilar artery within a fracture of the clivus. Case report, 929
Coccidioidomycosis
Multiple intracranial aneurysms due to *Coccidioides immitis* infection. Case report, 453
Collagen
Spontaneous carotid-cavernous fistula and multiple arterial dissections in Type IV Ehlers-Danlos syndrome. Case report, 462
Colloid cyst
Changing concepts in the treatment of colloid cysts. An 11-year experience in the CT era, 186
Compression neuropathy
Sleep palsy (Saturday-night palsy) of the deep radial nerve. Case report, 460
Computerized tomography
Attenuation in epidural hematomas. Letters, 789
Changing concepts in the treatment of colloid cysts. An 11-year experience in the CT era, 186
CT localization of a convexity brain tumor on the scalp. Technical note, 474
Imaging-based stereotaxic serial biopsies in untreated intracranial glial neoplasms, 865
The impact-absorbing effects of facial fractures in closed-head injuries. An analysis of 210 patients, 542
Magnetic resonance imaging and computerized tomography in relation to the neurobehavioral sequelae of mild and moderate head injuries, 706
Ultrasound- versus CT-guided stereotaxic biopsy. Letters, 788
Conjoined twins
Temporoparietal craniopagus. Case report and review of the literature, 72
Conus medullaris
Conus medullaris nerve root avulsions, 835
Coronal synostosis
Late surgical treatment of unilateral coronal synostosis using methyl methacrylate, 793
Cortical resection
Surgical therapy for medically intractable epilepsy, 489
Craniopagus
Temporoparietal craniopagus. Case report and review of the literature, 72
Cranioplasty
Late surgical treatment of unilateral coronal synostosis using methyl methacrylate, 793
Craniosynostosis
Late surgical treatment of unilateral coronal synostosis using methyl methacrylate, 793
Creatine kinase-BB isoenzyme
"Extrapolated" creatine kinase-BB isoenzyme activity in assessment of initial brain damage after severe head injury, 714
Cushing's disease
Surgical treatment of Cushing's disease, 204
Cysticercosis
Hydrocephalus secondary to cysticercotic arachnoiditis. A long-term follow-up review of 92 cases, 686
Long-term results of praziquantel therapy in neurocysticercosis, 359

Deoxyribonucleic acid
DNA in meningioma tissues and explant cell cultures. A flow cytometric study with clinicopathological correlates, 588
Depth electrodes
Pain relief by electrical stimulation of the periaqueductal and periventricular gray matter. Evidence for a non-opioid mechanism, 364
Desmoplasia
Desmoplastic supratentorial neuroepithelial tumors of infancy with divergent differentiation potential ("desmoplastic infantile gangliomas"). Report on 11 cases of a distinctive embryonal tumor with favorable prognosis, 58
Dexamethasone
Effect of dexamethasone on experimental brain abscess, 264
Diagnostic imaging, *see* specific studies
Digital subtraction angiography
Intravenous digital subtraction angiography and duplex ultrasonography in postoperative assessment of carotid endarterectomy, 88

Discectomy
Percutaneous automated discectomy: a new method for lumbar disc removal. Technical note, 143
Dopamine
Monoaminergic responses to spinal trauma. Participation of serotonin in posttraumatic progression of neural damage, 431
Doppler velocimetry
Intraoperative measurement of cortical blood flow adjacent to cerebral AVM using laser Doppler velocimetry, 396
Dorsal root entry zone
Conus medullaris nerve root avulsions, 835
Drug delivery
Effect on intracranial pressure of furosemide combined with varying doses and administration rates of mannitol, 440
Long-term intrathecal baclofen infusion for treatment of spasticity, 181
Reevaluating the efficacy of intra-arterial BCNU. Letter, 313
Dural graft
Neurosurgical use of human dura mater sterilized by gamma rays and stored in alcohol: long-term results, 93

Ehlers-Danlos syndrome
Spontaneous carotid-cavernous fistula and multiple arterial dissections in Type IV Ehlers-Danlos syndrome. Case report, 462
Electroencephalography
Treatment of experimental focal cerebral ischemia with mannitol. Assessment by intracellular brain pH, cortical blood flow, and electroencephalography, 109
Embolization
Delayed postoperative dural arteriovenous malformations. Report of two cases, 768
Giant intracranial varices secondary to high-flow arteriovenous fistulae, 198
Intravascular balloon embolization of a large mid-basilar artery aneurysm. Case report, 124
Treatment of bilateral spontaneous dural carotid-cavernous fistulas by coils and sclerotherapy. Case report, 468
Use of detachable balloons for proximal artery occlusion in the treatment of unclippable cerebral aneurysms, 40
Embryonal carcinoma
Mixed germ-cell tumor of the pineal region. Case report, 300
Encephalo-duro-arterio-synangiosis (EDAS)
The surgical treatment of childhood moyamoya disease, 675
Endometriosis
Cerebral endometriosis. Case report, 609
Endoscopy
Nasal endoscopes in hypophysectomy. Letter, 155
Ependymoma
Radiation therapy for neoplasms of the brain, 1
Epidermoid cyst
Carcinoembryonic antigen in epidermoid cyst fluid and plasma. Letter, 316
Squamous cell carcinoma as a late complication of intracerebroventricular epidermoid cyst. Case report, 618
Epidural hematoma
Attenuation in epidural hematomas. Letters, 789
Epilepsy
Epilepsy following ventricular shunt placement. Letters, 154
Surgical therapy for medically intractable epilepsy, 489
Erratum
Atlanto-occipital dislocations: correction. Letter, 789
Erythrocyte labeling
Quantitative estimation of hemorrhage in chronic subdural hematoma using the ^{51}Cr erythrocyte labeling method, 862
Estrogen receptor
Correlation of meningioma hormone receptor status with hormone sensitivity in a tumor stem-cell assay, 405

Evoked potentials
Transient suppression of event-related evoked potentials produced by mild head injury in the cat, 102

Facial bone fracture
The impact-absorbing effects of facial fractures in closed-head injuries. An analysis of 210 patients, 542
Facial nerve
Incision of facial nerve branch at aneurysm surgery. Letters, 482
Monitoring facial EMG responses during microvascular decompression operations for hemifacial spasm, 681
Familial lesion
Familial intracranial aneurysms, 522
Fetal surgery
Feasibility of intracranial surgery in the primate fetus. Model and surgical principles, 276
5-Fluorouracil
Hyperosmotic blood-brain barrier disruption in brains of rats with an intracerebrally transplanted RG-C6 tumor, 256
Foundation for International Education in Neurological Surgery, Inc.
Foundation for International Education in Neurological Surgery, Inc. Report of activities, 1984–1986. Letter, 311
Furosemide
Effect on intracranial pressure of furosemide combined with varying doses and administration rates of mannitol, 440

Giant-cell tumor
Giant-cell tumor of the middle cranial fossa. Case report, 924
Glasgow-Liège Coma Scale
"Extrapolated" creatine kinase-BB isoenzyme activity in assessment of initial brain damage after severe head injury, 714
Glioblastoma multiforme
Brain-stem tumors in childhood: a prospective randomized trial of irradiation with and without adjuvant CCNU, VCR, and prednisone. A report of the Childrens Cancer Study Group, 227
Radiation therapy for neoplasms of the brain, 1
The relationship between the capillary structure and hemorrhage in gliomas, 536
Glioma
Hyperosmotic blood-brain barrier disruption in brains of rats with an intracerebrally transplanted RG-C6 tumor, 256
Imaging-based stereotaxic serial biopsies in untreated intracranial glial neoplasms, 865
In vitro drug sensitivity testing in human gliomas, 161
Modulation *in vitro* and *in vivo* of ACNU resistance in a subline of C6 glioma with reserpine, 251
Risk of intracranial hemorrhage in glioma patients receiving anticoagulant therapy for venous thromboembolism, 357
Spread of malignant gliomas. Letters, 946
Glycerol
Glycerol rhizotomy for trigeminal neuralgia. Letters, 151
Growth hormone
Clinically silent hypersecretion of growth hormone in patients with pituitary tumors, 806

Head injury
Althesin in the management of ICP following head injury. Letters, 948

Brain damage from boxing. Letter, 153
Contribution of CSF and vascular factors to elevation of ICP in severely head-injured patients, 883
"Extrapolated" creatine kinase-BB isoenzyme activity in assessment of initial brain damage after severe head injury, 714
The impact-absorbing effects of facial fractures in closed-head injuries. An analysis of 210 patients, 542
Intracranial carotid artery injury in closed head trauma, 192
Magnetic resonance imaging and computerized tomography in relation to the neurobehavioral sequelae of mild and moderate head injuries, 706
Management of simple depressed skull fractures in children, 506
Neurobehavioral outcome following minor head injury: a three-center study, 234
Physiological and metabolic response to isolated closed-head injury. Part 2: Effects of steroids on metabolism. Potentiation of protein wasting and abnormalities of substrate utilization, 388
The predictive value of catecholamines in assessing outcome in traumatic brain injury, 875
The shaken baby syndrome. A clinical, pathological, and biomechanical study, 409
Transient suppression of event-related evoked potentials produced by mild head injury in the cat, 102
Hematopoiesis
Paraplegia due to extramedullary hematopoiesis in thalassemia. Case report, 938
Hemifacial spasm
Monitoring facial EMG responses during microvascular decompression operations for hemifacial spasm, 681
Herniated nucleus pulposus
Acute herniated nucleus pulposus with cauda equina compression syndrome following chemonucleolysis. Report of three cases, 614
Hetastarch
Use of hetastarch for volume expansion. Letters, 635
History of neurosurgery
Geoffrey Jefferson (1886–1961), neurosurgeon, physiologist, philosopher, 642
Hydrocephalus
Choroid plexus tumors: problems in diagnosis and management, 800
Epilepsy following ventricular shunt placement. Letters, 154
Feasibility of intracranial surgery in the primate fetus. Model and surgical principles, 276
Hydrocephalus secondary to cysticercotic arachnoiditis. A long-term follow-up review of 92 cases, 686
Influence of the rate of ventricular enlargement on the white matter water content in progressive feline hydrocephalus, 577
A laboratory model of shunt-dependent hydrocephalus. Development and biomechanical characterization, 734
A new approach in the treatment of hydrocephalus, 213
Hypophysectomy
Nasal endoscopes in hypophysectomy. Letter, 155

Immunocytochemistry
Desmoplastic supratentorial neuroepithelial tumors of infancy with divergent differentiation potential ("desmoplastic infantile gangliomas"). Report on 11 cases of a distinctive embryonal tumor with favorable prognosis, 58
Immunohistochemistry
Changes of neuropeptide immunoreactivity in cerebrovascular nerve fibers after experimentally produced SAH. Immunohistochemical study in the dog, 741
Hormone production in clinically nonfunctioning pituitary adenomas, 244
Immunotherapy
Adoptive immunotherapy of human meningeal gliomatosis and carcinomatosis with LAK cells and recombinant interleukin-2, 519
Potent and specific killing of human malignant brain tumor cells by an anti-transferrin receptor antibody-ricin immunotoxin, 850
Immunotoxin
Potent and specific killing of human malignant brain tumor cells by an anti-transferrin receptor antibody-ricin immunotoxin, 850
Infection, bacterial
Craniotomy flap osteomyelitis: a diagnostic approach, 96
Effect of dexamethasone on experimental brain abscess, 264
Perioperative antibiotic prophylaxis for prevention of postoperative neurosurgical infections. A randomized clinical trial, 701
Infection, fungal
Multiple intracranial aneurysms due to *Coccidioides immitis* infection. Case report, 453
Instrumentation
Aneurysm clip reliability. Letter, 315
Intracranial forceps. Letter, 484
Monitoring retraction pressure on the brain. An experimental and clinical study, 270
A new fixation device for the Leksell stereotaxic system. Technical note, 626
Percutaneous automated discectomy: a new method for lumbar disc removal. Technical note, 143
Interleukin-2
Adoptive immunotherapy of human meningeal gliomatosis and carcinomatosis with LAK cells and recombinant interleukin-2, 519
Interventional neuroradiology
Intravascular balloon embolization of a large mid-basilar artery aneurysm. Case report, 124
Use of detachable balloons for proximal artery occlusion in the treatment of unclippable cerebral aneurysms, 40
Intervertebral disc
Multiple thoracic disc herniations. Case report, 290
Percutaneous automated discectomy: a new method for lumbar disc removal. Technical note, 143
Vertebral arteriovenous fistula following anterior cervical spine surgery. Report of two cases, 297
Intracerebral hemorrhage
Effects of experimental intracerebral hemorrhage on blood flow, capillary permeability, and histochemistry, 555
Experimental intracerebral hemorrhage: effects of a temporary mass lesion, 568
Surgical treatment of arteriovenous malformations of the striatothalamocapsular region, 352
Intracranial forceps
Intracranial forceps. Letter, 484
Intracranial pressure
Althesin in the management of ICP following head injury. Letters, 948
Clipping of an AVM arterial feeder through a burr hole prior to radical surgery. Technical note, 305
Contribution of CSF and vascular factors to elevation of ICP in severely head-injured patients, 883
Effect of stimulation of the medullary reticular formation on cerebral vasomotor tonus and intracranial pressure, 548
Effect on intracranial pressure of furosemide combined with varying doses and administration rates of mannitol, 440
Transmission characteristics of pulse waves in the intracranial cavity of dogs, 907
Intracranial varix
Giant intracranial varices secondary to high-flow arteriovenous fistulae, 198
Intraoperative monitoring
Monitoring facial EMG responses during microvascular de-

compression operations for hemifacial spasm, 681
Intrauterine intracranial surgery
Feasibility of intracranial surgery in the primate fetus. Model and surgical principles, 276

Jefferson, Sir Geoffrey
Geoffrey Jefferson (1886–1961), neurosurgeon, physiologist, philosopher, 642

Laminectomy
Thoracic myelopathy secondary to ossification of the spinal ligament, 511
Laser
Argon laser-induced arterial photothrombosis. Characterization and possible application to therapy of arteriovenous malformations, 748
Ligamentum flavum
Thoracic myelopathy secondary to ossification of the spinal ligament, 511
Lipomeningocele
Lumbosacral intramedullary myolipoma. Case report, 457
Lumbar spine
A posttraumatic lumbar spinal synovial cyst. Case report, 293
Tandem lumbar and cervical spinal stenosis. Natural history, prognostic indices, and results after surgical decompression, 842
Lumbosacral cord
Extensibility of the lumbar and sacral cord. Pathophysiology of the tethered spinal cord in cats, 116

Magnetic resonance imaging
Imaging-based stereotaxic serial biopsies in untreated intracranial glial neoplasms, 865
Magnetic resonance images of brain-stem encephalitis. Case report, 283
Magnetic resonance imaging and computerized tomography in relation to the neurobehavioral sequelae of mild and moderate head injuries, 706
Magnetic resonance imaging of gadolinium-labeled monoclonal antibody polymers directed at human T lymphocytes implanted in canine brain, 898
Magnetic resonance imaging of spinal arteriovenous malformations, 830
Magnetic resonance imaging of spinal meningiomas and neurinomas. Improvement of imaging by paramagnetic contrast enhancement, 695
Repeated subarachnoid hemorrhages from a cervical meningioma. Case report, 779
Syringomyelia as a complication of Paget's disease. Case report, 611
Mannitol
Effect on intracranial pressure of furosemide combined with varying doses and administration rates of mannitol, 440
Hyperosmotic blood-brain barrier disruption in brains of rats with an intracerebrally transplanted RG-C6 tumor, 256
Influence of modes of ACNU administration on tissue and blood drug concentration in malignant brain tumors, 372
Treatment of experimental focal cerebral ischemia with mannitol. Assessment by intracellular brain pH, cortical blood flow, and electroencephalography, 109

Medulloblastoma
Radiation therapy for neoplasms of the brain, 1
A review of the factors influencing the prognosis of medulloblastoma. The importance of cell differentiation, 80
Melanoma
Primary melanomas of the central nervous system. Letter, 948
Primary spinal melanoma, 47
Meningeal carcinomatosis
Adoptive immunotherapy of human meningeal gliomatosis and carcinomatosis with LAK cells and recombinant interleukin-2, 519
Meningeal gliomatosis
Adoptive immunotherapy of human meningeal gliomatosis and carcinomatosis with LAK cells and recombinant interleukin-2, 519
Meningioma
Correlation of meningioma hormone receptor status with hormone sensitivity in a tumor stem-cell assay, 405
DNA in meningioma tissues and explant cell cultures. A flow cytometric study with clinicopathological correlates, 588
Effect of the antiprogesterone RU-38486 on meningioma implanted into nude mice, 584
Magnetic resonance imaging of spinal meningiomas and neurinomas. Improvement of imaging by paramagnetic contrast enhancement, 695
Meningeal melanocytoma. Case report and review of the clinical and histological features, 50
Repeated subarachnoid hemorrhages from a cervical meningioma. Case report, 779
Metabolism
Physiological and metabolic response to isolated closed-head injury. Part 2: Effects of steroids on metabolism. Potentiation of protein wasting and abnormalities of substrate utilization, 388
Methyl methacrylate
Late surgical treatment of unilateral coronal synostosis using methyl methacrylate, 793
Microvascular decompression
Monitoring facial EMG responses during microvascular decompression operations for hemifacial spasm, 681
Microvasculature
Changes of neuropeptide immunoreactivity in cerebrovascular nerve fibers after experimentally produced SAH. Immunohistochemical study in the dog, 741
Effect of subarachnoid hemorrhage on endothelium-dependent vasodilation, 915
Effects of experimental intracerebral hemorrhage on blood flow, capillary permeability, and histochemistry, 555
Microangioarchitecture of the feline spinal cord. Three-dimensional observation of blood vessel corrosion casts by scanning electron microscopy, 447
The relationship between the capillary structure and hemorrhage in gliomas, 536
Monoclonal antibody
Magnetic resonance imaging of gadolinium-labeled monoclonal antibody polymers directed at human T lymphocytes implanted in canine brain, 898
Moyamoya disease
The surgical treatment of childhood moyamoya disease, 675
Mycotic aneurysm
Multiple intracranial aneurysms due to *Coccidioides immitis* infection. Case report, 453
Myelography
Cervical flexion myelopathy: a "tight dural canal mechanism." Case report, 935
Myelomeningocele
Symptomatic Arnold-Chiari malformation: review of experience with 22 cases, 812
Myelopathy
Multiple thoracic disc herniations. Case report, 290
Thoracic spinal canal stenosis, 338

Nerve entrapment
Axillary nerve entrapment in the quadrilateral space. Case report, 932
Nerve root avulsion
Conus medullaris nerve root avulsions, 835
Nerve root compression
Pachymeningitis cervicalis hypertrophica. Case report, 137
A posttraumatic lumbar spinal synovial cyst. Case report, 293
Neurinoma
Magnetic resonance imaging of spinal meningiomas and neurinomas. Improvement of imaging by paramagnetic contrast enhancement, 695
Neurobehavioral outcome
Magnetic resonance imaging and computerized tomography in relation to the neurobehavioral sequelae of mild and moderate head injuries, 706
Neurobehavioral outcome following minor head injury: a three-center study, 234
Neurofilament
Evolution of tissue damage in compressive spinal cord injury in rats, 595
Neurosurgical education
Foundation for International Education in Neurological Surgery, Inc. Report of activities, 1984–1986. Letter, 311
Neurosurgical manpower
Senior neurosurgical resident questionnaire. Letter, 483
Neurovascular compression
Spasmodic torticollis resulting from neurovascular compression. Letter, 635
Nimodipine
Effect of a calcium channel blocker on posttraumatic spinal cord blood flow, 423
Effect of early aneurysm surgery and nimodipine administration. Letters, 482
Time course of blood velocity changes related to vasospasm in the circle of Willis measured by transcranial Doppler ultrasound, 718
Norepinephrine
Monoaminergic responses to spinal trauma. Participation of serotonin in posttraumatic progression of neural damage, 431
Normal-pressure hydrocephalus
Cerebral blood flow in patients with normal-pressure hydrocephalus before and after shunting, 379

Obituaries
Eric Oldberg, M.D., 1901–1986, 641
Richard C. Schneider, M.D., 1913–1986, 159
Oldberg, Eric
Eric Oldberg, M.D., 1901–1986, 641
Oligodendroglioma
The relationship between the capillary structure and hemorrhage in gliomas, 536
Omental transplantation
Omental transplantation for stroke and TIA's. Letter, 152
Operative technique, *see also* Surgical approach
Aneurysms of the basilar artery trunk, 500
One-knot microvascular anastomosis. An experimental study in rats, 764
Principles of preparation of vein bypass grafts to maximize patency, 172
Surgical treatment of arteriovenous malformations of the striatothalamocapsular region, 352
Organ transplantation
Neurosurgeons' role in organ transplantation. Letter, 947
Osteomyelitis
Craniotomy flap osteomyelitis: a diagnostic approach, 96

Pachymeningitis cervicalis hypertrophica
Pachymeningitis cervicalis hypertrophica. Case report, 137
Paget's disease
Syringomyelia as a complication of Paget's disease. Case report, 611
Pain
Pain relief by electrical stimulation of the periaqueductal and periventricular gray matter. Evidence for a non-opioid mechanism, 364
Paraganglioma
Catecholamine-secreting paragangliomas of the base of the skull. Report of two cases, 604
Paramagnetic contrast enhancement
Magnetic resonance imaging of spinal meningiomas and neurinomas. Improvement of imaging by paramagnetic contrast enhancement, 695
Paraplegia
Paraplegia due to extramedullary hematopoiesis in thalassemia. Case report, 938
Pheochromocytoma
Catecholamine-secreting paragangliomas of the base of the skull. Report of two cases, 604
Pineal tumor
Mixed germ-cell tumor of the pineal region. Case report, 300
Pituitary adenoma
Clinically silent hypersecretion of growth hormone in patients with pituitary tumors, 806
Hormone production in clinically nonfunctioning pituitary adenomas, 244
Surgical treatment of Cushing's disease, 204
Pituitary gland
A direct transnasal approach to the sphenoid sinus. Technical note, 140
Plasminogen
Correlation of tumor plasminogen activator with peritumoral cerebral edema. A CT and biochemical study, 729
Plasminogen activator
Correlation of tumor plasminogen activator with peritumoral cerebral edema. A CT and biochemical study, 729
Pons
Occlusion of the basilar artery within a fracture of the clivus. Case report, 929
Positron emission tomography
Hemodynamic and metabolic effects of cerebral revascularization, 529
Posterior longitudinal ligament ossification
Thoracic myelopathy secondary to ossification of the spinal ligament, 511
Postoperative complication
Delayed postoperative dural arteriovenous malformations. Report of two cases, 768
Praziquantel
Long-term results of praziquantel therapy in neurocysticercosis, 359
Pressure-volume index
A laboratory model of shunt-dependent hydrocephalus. Development and biomechanical characterization, 734
Progesterone receptor
Correlation of meningioma hormone receptor status with hormone sensitivity in a tumor stem-cell assay, 405
Pseudomeningocele
Conus medullaris nerve root avulsions, 835

Quadrilateral space syndrome
Axillary nerve entrapment in the quadrilateral space. Case report, 932

Radial nerve compression
Sleep palsy (Saturday-night palsy) of the deep radial nerve. Case report, 460
Radiation therapy
Brain-stem tumors in childhood: a prospective randomized trial of irradiation with and without adjuvant CCNU, VCR, and prednisone. A report of the Childrens Cancer Study Group, 227
Giant-cell tumor of the middle cranial fossa. Case report, 924
Radiation therapy for neoplasms of the brain, 1
A review of the factors influencing the prognosis of medulloblastoma. The importance of cell differentiation, 80
Reserpine
Modulation *in vitro* and *in vivo* of ACNU resistance in a subline of C6 glioma with reserpine, 251
Resident training
Senior neurosurgical resident questionnaire. Letter, 483
Reticular formation
Effect of stimulation of the medullary reticular formation on cerebral vasomotor tonus and intracranial pressure, 548
Revascularization
Hemodynamic and metabolic effects of cerebral revascularization, 529
Reconstruction of cerebral cortical veins using silicone tubing. Technical note, 471
The surgical treatment of childhood moyamoya disease, 675
Vertebrobasilar insufficiency. Part 1: Microsurgical treatment of extracranial vertebrobasilar disease, 648
Vertebrobasilar insufficiency. Part 2: Microsurgical treatment of intracranial vertebrobasilar disease, 662
Rheumatic fever
Atlanto-axial dislocation in acute rheumatic fever. Case report, 286
Ricin
Potent and specific killing of human malignant brain tumor cells by an anti-transferrin receptor antibody-ricin immunotoxin, 850

Saphenous vein
Principles of preparation of vein bypass grafts to maximize patency, 172
Saturday-night palsy
Sleep palsy (Saturday-night palsy) of the deep radial nerve. Case report, 460
Schneider, Richard C.
Richard C. Schneider, M.D., 1913–1986, 159
Schwannoma
Elusive tumor of the cauda equina. Case report, 131
Serotonin
Monoaminergic responses to spinal trauma. Participation of serotonin in posttraumatic progression of neural damage, 431
Shaken baby syndrome
The shaken baby syndrome. A clinical, pathological, and biomechanical study, 409
Shunt
Cerebral blood flow in patients with normal-pressure hydrocephalus before and after shunting, 379
Epilepsy following ventricular shunt placement. Letters, 154
A new approach in the treatment of hydrocephalus, 213
Skull fracture
Management of simple depressed skull fractures in children, 506
Skull neoplasm
Catecholamine-secreting paragangliomas of the base of the skull. Report of two cases, 604
Giant-cell tumor of the middle cranial fossa. Case report, 924
Spasmodic torticollis
Spasmodic torticollis resulting from neurovascular compression. Letter, 635
Spasticity
Long-term intrathecal baclofen infusion for treatment of spasticity, 181
Spinal canal stenosis
Thoracic spinal canal stenosis, 338
Spinal cord
Extensibility of the lumbar and sacral cord. Pathophysiology of the tethered spinal cord in cats, 116
Lumbosacral intramedullary myolipoma. Case report, 457
Magnetic resonance imaging of spinal arteriovenous malformations, 830
Microangioarchitecture of the feline spinal cord. Three-dimensional observation of blood vessel corrosion casts by scanning electron microscopy, 447
Spinal cord blood flow
Effect of a calcium channel blocker on posttraumatic spinal cord blood flow, 423
Spinal cord injury
Deterioration following spinal cord injury. A multicenter study, 400
Evolution of tissue damage in compressive spinal cord injury in rats, 595
Monoaminergic responses to spinal trauma. Participation of serotonin in posttraumatic progression of neural damage, 431
The neurological and skeletal outcome in patients with closed cervical spinal cord injury, 690
Spinal cord neoplasm
Intracranial metastases from malignant spinal-cord astrocytoma. Case report, 621
Magnetic resonance imaging of spinal meningiomas and neurinomas. Improvement of imaging by paramagnetic contrast enhancement, 695
Primary spinal melanoma, 47
Spinal dysraphism
Lumbosacral intramedullary myolipoma. Case report, 457
Spinal fusion
The neurological and skeletal outcome in patients with closed cervical spinal cord injury, 690
Spinal lesion
Cervical flexion myelopathy: a "tight dural canal mechanism." Case report, 935
Paraplegia due to extramedullary hematopoiesis in thalassemia. Case report, 938
Thoracic myelopathy secondary to ossification of the spinal ligament, 511
Variants of radiculomeningeal vascular malformations of the spine, 333
Spinal neoplasm
Chondroma of the cervical spine. Case report, 128
Elusive tumor of the cauda equina. Case report, 131
Spinal stenosis
Tandem lumbar and cervical spinal stenosis. Natural history, prognostic indices, and results after surgical decompression, 842
Spondylosis
Thoracic spinal canal stenosis, 338
Squamous cell carcinoma
Squamous cell carcinoma as a late complication of intracerebroventricular epidermoid cyst. Case report, 618
Stereotaxis
Changing concepts in the treatment of colloid cysts. An 11-year experience in the CT era, 186
Imaging-based stereotaxic serial biopsies in untreated intracranial glial neoplasms, 865
A new fixation device for the Leksell stereotaxic system. Technical note, 626
Ultrasound- versus CT-guided stereotaxic biopsy. Letters, 788
Steroids
Effect of dexamethasone on experimental brain abscess, 264
Physiological and metabolic response to isolated closed-head

injury. Part 2: Effects of steroids on metabolism. Potentiation of protein wasting and abnormalities of substrate utilization, 388
Subarachnoid hemorrhage
Aneurysms of the basilar artery trunk, 500
Cavernous angioma of the cauda equina producing subarachnoid hemorrhage. Case report, 134
Changes of neuropeptide immunoreactivity in cerebrovascular nerve fibers after experimentally produced SAH. Immunohistochemical study in the dog, 741
Effect of clot removal at 24 hours on chronic vasospasm after SAH in the primate model, 416
Effect of subarachnoid hemorrhage on endothelium-dependent vasodilation, 915
Familial intracranial aneurysms, 522
Immune complexes and complement activation following rupture of intracranial saccular aneurysms, 891
The minor leak preceding subarachnoid hemorrhage, 35
Natural history of postoperative aneurysm rests, 30
Repeated subarachnoid hemorrhages from a cervical meningioma. Case report, 779
The significance of unruptured intracranial saccular aneurysms, 23
Subarachnoid hemorrhage following chymopapain chemonucleolysis. Case report, 775
Surgical treatment of arteriovenous malformations of the striatothalamocapsular region, 352
Time course of blood velocity changes related to vasospasm in the circle of Willis measured by transcranial Doppler ultrasound, 718
Subdural hematoma
Quantitative estimation of hemorrhage in chronic subdural hematoma using the ^{51}Cr erythrocyte labeling method, 862
Surgical approach
A direct transnasal approach to the sphenoid sinus. Technical note, 140
Surgical treatment of Cushing's disease, 204
Surgical approach
Interhemispheric approach for the surgical removal of thalamocaudate arteriovenous malformations, 345
Synovial cyst
A posttraumatic lumbar spinal synovial cyst. Case report, 293
Syringomyelia
Syringomyelia as a complication of Paget's disease. Case report, 611

Temporal lobe resection
Surgical therapy for medically intractable epilepsy, 489
Tethered spinal cord
Extensibility of the lumbar and sacral cord. Pathophysiology of the tethered spinal cord in cats, 116
Lumbosacral intramedullary myolipoma. Case report, 457
Thalamus
Interhemispheric approach for the surgical removal of thalamocaudate arteriovenous malformations, 345
Thalassemia
Paraplegia due to extramedullary hematopoiesis in thalassemia. Case report, 938
Thoracic spine
Multiple thoracic disc herniations. Case report, 290
Thoracic spine
Thoracic spinal canal stenosis, 338
Thromboembolism
Risk of intracranial hemorrhage in glioma patients receiving anticoagulant therapy for venous thromboembolism, 357
T lymphocytes
Magnetic resonance imaging of gadolinium-labeled monoclonal antibody polymers directed at human T lymphocytes implanted in canine brain, 898
Transferrin receptor
Potent and specific killing of human malignant brain tumor cells by an anti-transferrin receptor antibody-ricin immunotoxin, 850
Transnasal approach
A direct transnasal approach to the sphenoid sinus. Technical note, 140
Transsphenoidal approach
A direct transnasal approach to the sphenoid sinus. Technical note, 140
Surgical treatment of Cushing's disease, 204
Trigeminal neuralgia
Glycerol rhizotomy for trigeminal neuralgia. Letters, 151

Ultrasonography
Intravenous digital subtraction angiography and duplex ultrasonography in postoperative assessment of carotid endarterectomy, 88
Time course of blood velocity changes related to vasospasm in the circle of Willis measured by transcranial Doppler ultrasound, 718
Ultrasound- versus CT-guided stereotaxic biopsy. Letters, 788
Ultrastructural study
Microangioarchitecture of the feline spinal cord. Three-dimensional observation of blood vessel corrosion casts by scanning electron microscopy, 447

Vasospasm
Effect of clot removal at 24 hours on chronic vasospasm after SAH in the primate model, 416
Immune complexes and complement activation following rupture of intracranial saccular aneurysms, 891
Time course of blood velocity changes related to vasospasm in the circle of Willis measured by transcranial Doppler ultrasound, 718
Use of hetastarch for volume expansion. Letters, 635
Vein graft
Principles of preparation of vein bypass grafts to maximize patency, 172
Vein, *see* specific veins
Ventriculomegaly
Influence of the rate of ventricular enlargement on the white matter water content in progressive feline hydrocephalus, 577
Ventriculoperitoneal shunt
A new approach in the treatment of hydrocephalus, 213
Vertebral artery
Use of detachable balloons for proximal artery occlusion in the treatment of unclippable cerebral aneurysms, 40
Vertebral arteriovenous fistula following anterior cervical spine surgery. Report of two cases, 297
Vertebrobasilar insufficiency
Vertebrobasilar insufficiency. Part 1: Microsurgical treatment of extracranial vertebrobasilar disease, 648
Vertebrobasilar insufficiency. Part 2: Microsurgical treatment of intracranial vertebrobasilar disease, 662
